

Merchants Fleet Management Eclipses 50,000 Managed Units

Hooksett, N.H. July 11th, 2018: Merchants Fleet Management is excited to announce it has surpassed 50,000 leased or managed units. Over the past 5 years, the company has expanded its portfolio by 46%. The strong showing is another step towards the recent expansion goal set by CEO Brendan P. Keegan, to double the size of the company by 2023.

“We are thrilled to reach 50,000 units and are looking forward to continued growth” stated Keegan. “We’re continuing to add business with existing clients while adding strong new clients to our client roster. Our plan is to build on our upward trajectory of growth and continue to provide unparalleled service to our clients.”

A recent independent survey reinforces Keegan’s statement finding 91% of current clients would recommend Merchants as their fleet partner. This expansion plan continues and will be centered around investments in technology and talent management.
